Hands-On Experiences with History and Nature

The Glenview Park District is proud to feature three award-winning museums that offer a wide variety of field trip opportunities for your students. At the Kent Fuller Air Station Prairie, The Grove National Historic Landmark and Wagner Farm your students won’t just learn about the past and our environment, they’ll be a part of it:

**Air Station Prairie School Programs** offer the rare opportunity for students to discover the wonders of the tallgrass prairie or see the latest in "green" technology.

**Grove School Programs** allow students to live the life of a pioneer, get hands-on with native plants and animals and experience our fragile ecosystems up close.

**Wagner Farm School Programs** get students involved in everything from feeding the livestock and planting crops to buying supplies at an antique grocery store.

Our school programs are typically 1 ½-4 hours in length and are a wonderful way to enhance your students’ classroom learning. Morning and afternoon sessions are offered on a flexible schedule. All programs can be adapted for a particular focus, special needs or a diverse audience. Teachers and aides may participate in any of our programs at no cost. In addition, one chaperone per 15 students may participate free of charge.

So bring your students to The Grove, Wagner Farm or Air Station Prairie for an experience they’ll never forget!

A visit to Air Station Prairie is an opportunity to experience the Illinois of yesteryear, when prairies covered most of the state. Students will discover this diverse ecosystem up close with a variety of environmental education and natural history programs. At this unique site, students may also learn about the future of our environment through sustainability programming that features alternative energy, recycling, and the latest in green technology.

Each program helps to fulfill Illinois State Board of Education Standards indicated.

For more information and to take a look at what a trip to Air Station Prairie can offer your group, please visit:

www.AirStationPrairie.org
Prairie Primer ~
The Air Station Prairie’s natural areas will introduce young explorers to prairie life—both plant and animal. Students enjoy a sensory rich experience that gives them a chance to touch, smell and see the differences between Illinois native prairie plants. A guided trail walk allows students to identify common prairie plants and discover evidence of animal life.

Grade Level: pre K-1
Program Length: 1 hour
State Standards: 12.A.1a, 12.A.1b, 12.B.1a, 12.B.1b
Min/Max: 12/50
Fee: $5.25
Availability: Fall or spring

Recycling 101 ~
Learn what happens to your garbage once it’s thrown away—you’ll be surprised to find out how long some things can last in a landfill! Students will learn to identify what can and cannot be recycled through interactive games and activities. We’ll discover why recycling is so important, what can be made from recycled materials and ways we can reduce our waste at school and at home.

Grade Level: 3-5
Program Length: 1 ½ hours
State Standards: 12.E.2c, 12.E.3c, 13.B.3d
Min/Max: 15/30
Fee: $5.25
Availability: Year round

Prairie 101 ~
Air Station Prairie is the ideal setting for students to see first hand how this grassland differs from other types of ecosystems. Students will learn to identify the characteristics of native plants and find out what makes prairie plants adaptable to such harsh conditions. We’ll discover the principles of controlled fire and find out what types of wildlife make the prairie their home. An interactive prairie walk includes hands on natural history activities.

Grade Level: 1-6
Program Length: 1 ½ hours
Min/Max: 12/50
Fee: $5.25
Availability: Fall or spring

A Mighty Wind ~
Most of the electricity that we use in Illinois comes from burning coal or through nuclear power—which are not always environmentally friendly sources. Learn about wind power as a safer energy alternative, as well as some of the other forms of alternative energy that are now available. Students will work together in small teams to construct a kite, and then test it outside to see wind power in action!

Grade Level: 5-8
Program Length: 1 ½ hours
State Standards: 12.E.2a, 12.E.3a
Min/Max: 15/30
Fee: $5.25
Availability: Fall or spring

New! Weather Wise ~
Why does the wind blow? What do the cloud patterns mean? How do meteorologists predict the weather? Discover the answers to these questions and find out about other fascinating climate and weather topics. Students will learn how the weather affects our day-to-day lives and how our actions may be affecting the climate around the world. Hands-on activities will include taking measurements and readings, as well as using the Tyner Center’s weather station.

Grade Level: 3-5
Program Length: 1 ½ hours
State Standards: 12.E.2a, 12.E.3a, 12.E.3b
Min/Max: 12/30
Fee: $5.25
Availability: Fall or spring

*touch, smell, see...*
New! **Scientific Methods ~**
This science-based program provides students with hands-on experiences both in the field and in the laboratory through close investigation of Air Station Prairie. We’ll compare two different locations on the prairie using a quadrat study and transect sampling techniques. Students will use the scientific method to form a hypothesis, take measurements and collect data, then draw their own conclusions about the health and diversity of the prairie ecosystem.

**Grade Level:** 5-8  
**Program Length:** 2 hours  
**State Standards:** 11.A.3a, 11.A.3c, 11.A.3d, 11.A.3f  
**Min/Max:** 12/30  
**Fee:** $6.75  
**Availability:** Early fall or late spring

**Going Green ~**
What makes a building “green”? Learn why the Evelyn Pease Tyner Interpretive Center is a LEED Platinum certified building, and discover all the green technologies that are incorporated into its design. We’ll take you on a guided tour of the building that will focus on the geothermal heating and cooling system, photovoltaic roof panels and eco-friendly building materials and practices. Outside we’ll take a close-up look at the Tyner Center’s vegetative roof and learn about the history of Air Station Prairie.

**Grade Level:** 6-8  
**Program Length:** 1 hour  
**State Standards:** 12.E.3c, 13.B.3a, 13.B.3e  
**Min/Max:** 12/30  
**Fee:** $5.25  
**Availability:** Year round

New! **Human Footprint ~**
Humans have been impacting the earth for thousands of years. In this timely program, we’ll learn about natural resource consumption and how the choices we make as individuals can have a global effect on the health and climate of the world. Hands-on activities with an interactive landscape model will demonstrate first hand how our actions impact the land. Students will find out what a “carbon footprint” is, how to calculate the footprint of their school or home, and some practical ways to reduce their impact on the earth.

**Grade Level:** 6-8  
**Program Length:** 1 ½ hours  
**State Standards:** 12.B.2a, 12.B.3a, 12.E.2c, 12.E.3c, 13.B.3a, 13.B.3d  
**Min/Max:** 12/30  
**Fee:** $5.25  
**Availability:** Year round
Our programs are uniquely hands-on and are developed to enhance school science and social studies units. Students can learn first hand about the Native American tribes and settlers who lived on this land or experience daily life in the 1856 Historic Kennicott House, cooking, churning butter and making a candle. Perform pioneer chores in our authentic log cabin or attend the one room Grove School with a costumed schoolmarm. A wide variety of environmental programming takes place in The Grove’s Interpretive Center where students will discover native animals, plants, and the natural history of the ecosystems that once dominated our Prairie State.

Each program helps to fulfill Illinois State Board of Education Standards indicated.

For more information and to take a look at what a trip to The Grove can offer your group, please visit:

www.TheGroveGlenview.org

National Historic Landmark
1421 Milwaukee Avenue
Glenview, IL 60025
847/299-6096
**Seasonal Changes ~**
Students delight in this opportunity to observe nature and explore the world around them. A guided walk through the woods will focus on plants, animals and the change of seasons. A visit to The Grove’s Interpretive Center includes an up-close experience with our animals and hands-on activities with natural artifacts. Many classes come for this program once in the fall and again in the spring to compare and contrast the seasons.

*Grade Level:* pre K-1; *Program Length:* 1 ½ hours
*State Standards:* 11.A.1a, 11.A.1b, 12.A.1a, 12.A.1b, 12.B.1a, 12.B.1b
*Min/Max:* 12/75
*Fee:* $5.25; *Availability:* Fall and/or spring

**Habitats and Life Cycles ~**
Countless animals and plants make The Grove their home. This program introduces students to the basic needs of all living things and how a habitat meets these needs. An overview of the cycles of life includes seasonal changes, day vs. night and plant and animal life cycles. A guided trail walk explores woodland, wetland and prairie habitats and a close look at soil creatures allows the class to investigate a fascinating world of life just below their feet.

*Grade Level:* 1-4; *Program Length:* 2 hours
*Min/Max:* 12/60
*Fee:* $6.75; *Availability:* Fall or spring

**Animal Adaptations ~**
In this program, students take a close look at our furred and feathered friends to learn about adaptations for survival. First we explore the world of birds to discover beak and foot diversity and the unique characteristics of feathers. Then hands-on activities with mammal artifacts include investigating fur types, as well as carnivore, herbivore and omnivore skulls. A tracking activity and trail walk are included.

*Grade Level:* 2-6; *Program Length:* 2 hours
*Min/Max:* 12/60
*Fee:* $6.75; *Availability:* Year round

**Reptiles and Amphibians ~**
Herpetology literally means the “study of creeping animals” and that’s just what we’ll do in this program. Through interactive stations, students will learn about these two fascinating groups and compare and contrast reptile and amphibian body characteristics and life cycles. An identification activity uses a simple taxonomic key and features unforgettable encounters with our resident “herps.”

*Grade Level:* 3-8; *Program Length:* 2 hours
*Min/Max:* 12/30
*Fee:* $6.75; *Availability:* Year round

**Ecosystems ~**
The Grove’s natural areas are a haven for wildlife and native plants. In this program, students learn about the dynamics of various ecosystems and look closely at one of the many wetlands on the site. Field investigation includes collection of water samples and wetland organisms to observe more closely in the science classroom. Here, students use magnifying glasses, field guides and a dissecting microscope and record their observations of the rich wetland ecosystem.

*Grade Level:* 3-8; *Program Length:* 2 hours
*Min/Max:* 12/60
*Fee:* $6.75; *Availability:* Early fall or late spring

**Dynamic Earth ~**
What forces have shaped the earth we live on? Students learn the basic concepts of geology including land formation, plate tectonics and soil make-up. Hands-on activities include rock, mineral and fossil investigation and a demonstration using a real frozen “glacier.” A guided trail walk focuses on some unique geologic features of The Grove, which sits atop the Park Ridge Moraine.

*Grade Level:* 3-8; *Program Length:* 2 hours
*Min/Max:* 12/30
*Fee:* $6.75; *Availability:* Year round
Environmental Programs at The Grove (continued)

Change Over Time ~
Scientists explore change through time using the rich fossil record. In this program, students will learn about the history of the world, major extinction events and how animals and plants have adapted to survive over time. Hands-on activities with The Grove’s extensive fossil collection include fossil rubbings, matching ancient fossils to their modern relatives and the use of paleontological techniques to remove real fossils from their rock matrix.

**Grade Level:** 3-8
**Program Length:** 2 hours
**State Standards:** 11.A.1a, 11.A.1b, 11.B.1a, 12.A.1a, 12.A.1b, 12.A.3c, 12.B.1a, 12.B.1b, 12.B.2b, 12.B.3b, 12.E.3a

**Min/Max:** 12/30
**Fee:** $6.75; **Availability:** Year round

New! GSI: Grove Scene Investigation ~
A mystery needs to be solved at The Grove – and your students are the detectives on the case! We’ll use forensic problem solving skills to gather clues, examine evidence, and draw conclusions about predator/prey relationships to solve the crime. Hands-on activities include owl pellet dissection and artifact examination.

**Grade Level:** 4-8
**Program Length:** 2 hours
**State Standards:** 11.A.2a, 11.A.2b, 11.A.2e, 11.A.3f, 12.B.2a, 12.B.3b

**Min/Max:** 12/30
**Fee:** $6.75; **Availability:** Year round

Web of Life ~
All living things are part of the intricate interrelationships of the food web. This program focuses on plants as producers and the most integral part of this system. Through hands-on activities, students will learn about the role of plants as well as plant form, function and classification. A guided trail walk will include using taxonomic keys to identify some of The Grove’s trees or wildflowers.

**Grade Level:** 4-8
**Program Length:** 2 hours
**State Standards:** 11.A.2b, 12.A.3c, 12.B.2a, 12.B.2b, 12.B.3a, 12.B.3b, 13.B.2f

**Min/Max:** 12/30
**Fee:** $6.75; **Availability:** Fall or spring

Insect Field Study ~
Insects make up most of the world’s species and are invaluable as plant pollinators and as a food source. This program teaches students how to identify and classify insects based on unique characteristics. Student entomologists then head outside to collect insect specimens in the field with sweep nets and insect jars (for later release.) Closer observations with magnifiers and field guides allow students to I.D. and catalog their finds.

**Grade Level:** 4-8
**Program Length:** 2 hours
**State Standards:** 11.A.2b, 12.A.2a, 12.A.3c, 12.B.2a, 12.B.2b, 12.B.3a, 12.B.3b

**Min/Max:** 12/30
**Fee:** $6.75; **Availability:** Early fall or late spring

New! Restoration Stewardship ~
Here’s your chance to make a difference in the environment! Students will learn how this area has changed over time and some of the factors that have degraded our natural ecosystems. We’ll participate in some of the techniques conservationists use to bring back health and diversity once lost. Seasonal activities include brush cutting, invasive species removal and native seed collecting. A guided trail walk and hands-on activities make for a fun, well-rounded program. You may choose to register for multiple seasons to experience different restoration techniques.

**Grade Level:** 4-8
**Program Length:** 2 hours
**State Standards:** 13.B.2f, 13.B.3e

**Min/Max:** 12/90
**Fee:** $6.75; **Availability:** Year round

To Register...
To register for Grove programs or for more information please call 847/299-6096 or e-mail Kris.VanVoorhis@GlenviewParks.org

Groups...
A visit to The Grove is also a special experience for all types of groups including preschools, camps, seniors and scout groups. We have a variety of available options ranging from tours of the facility to hands-on programs.

To Register...
To register for Grove programs or for more information please call 847/299-6096 or e-mail Kris.VanVoorhis@GlenviewParks.org

Groups...
A visit to The Grove is also a special experience for all types of groups including preschools, camps, seniors and scout groups. We have a variety of available options ranging from tours of the facility to hands-on programs.
Early Glenview ~
Take a "walk through time" to explore the changes in population and land usage in our area and specifically at The Grove. Students will learn about the Potawatomi Indians, early Illinois settlers, farmers of yesteryear, and people of today through visits to our Native American longhouse, log cabin, Kennicott House and Milwaukee plank road. Artifacts and activities will illustrate how different groups lived and changed the land over the ages.

Grade Level: 2-4; Program Length: 1 ½ hours
Min/Max: 12/90
Fee: $5.25; Availability: Year round

Schoolhouse ~
Students travel back in time to a school day in 1856 at The Grove's reconstructed one room schoolhouse. A costumed schoolmarm or schoolmaster leads "scholars" through geography, history, spelling and math lessons. Activities may include reading from McGuffey Readers, writing on slate boards and using quill pens. Recess in the schoolyard features pioneer toys and old time games.

Grade Level: 2-8; Program Length: 2 hours
Min/Max: 12/30
Fee: $6.75; Availability: Year round

Native North Americans ~
Students take part in hands-on activities in our own replica of a Native American longhouse. The Potawatomi Indians used The Grove environs prior to the arrival of the Kennicott family. This unique program explores how this group of people lived and impacted the land, and looks closely at their culture and heritage. Topics include the importance of communal living, procurement and processing of foods and medicine, tool use, singing and dancing, handicraft and games.

Grade Level: 2-6; Program Length: 2 hours
Min/Max: 12/40
Fee: $6.75; Availability: Year round

Native American Focus ~
A shorter version of our Native North Americans program geared to a younger audience. This delightful program introduces students to Native American family life and features hands-on activities inside and outside our Native American longhouse.

Grade Level: pre K-1; Program Length: 1 hour
State Standards: 16.A.1a, 16.A.1c, 16.C.1a
Min/Max: 12/30
Fee: $5.25; Availability: Year round
New! Cora's Trunk ~

The Kennicotts made their homestead at The Grove in 1836. Cora was the youngest Kennicott daughter and won many awards for her excellence in hand work. This program brings the past to life as students explore the contents of Cora’s enchanting trunk of clothing, linens, letters, personal effects and home essentials from a young lady of the 1800s. Costumed interpreters portray the role women had over 150 years ago. A garden walk and visits to Cora’s bedroom and the Kennicott parlor are included.

**Please note:** This program may be combined with Robert’s Trunk (see page 7) for a more diverse experience.

**Grade Level:** 3-6; **Program Length:** 2 hours
**Min/Max:** 12/30
**Fee:** $6.75; **Availability:** Fall or spring

New! Pack Your Wagon ~

Westward Ho! What items were necessary for a family to go west to settle a new homestead? Students will learn about life in the 1800s and the reasons for westward expansion. Math, logic and problem solving skills will be utilized to determine what will be taken on the journey and what will be left behind. Students will actually pack their supplies into our covered wagon as they learn some of the hardships the pioneers faced during their migration.

**Grade Level:** 4-6; **Program Length:** 2 hours
**Min/Max:** 12/30
**Fee:** $6.75; **Availability:** Fall or spring

Pioneer Skills ~

This popular program takes place in the historic Kennicott House. Each class prepares their own lunch over a wood burning stove including vegetable and beef stews, applesauce and cornbread with hand-churned butter. Emphasis is on the Kennicott family, the first pioneer settlers of The Grove, and their contributions to natural science, medicine, education and agriculture. Family life is explored through hands-on activities such as weaving, rope making, tin punching and candle dipping.

**Grade Level:** 5-8; **Program Length:** 3 ½ - 4 hours
**State Standards:** 16.D.2b, 16.D.2c, 16.E.2a
**Min/Max:** 15/40 (Groups of up to 100 students may be accommodated with a modified program)
**Fee:** $7.75; **Availability:** Year round
**Please Note:** Food is supplied by each visiting class. Supply list is included with confirmation.

Digging up the Past ~

Students take part in an archaeological “dig” in the basement of the historic Kennicott House to uncover secrets of the past. Here they will find genuine household tools and artifacts excavated from under the house during its restoration many years ago. This program introduces students to proper field methods, laboratory evaluation and interpretation techniques.

**Grade Level:** 4-8; **Program Length:** 2 hours
**Min/Max:** 12/30
**Fee:** $6.75; **Availability:** Year round

New! Archival Studies ~

The Grove Archives Building houses over 30,000 letters, publications, photographs and artifacts from the Kennicott family and other residents of The Grove. Our historians have uncovered a wealth of information in these documents pertaining to the people and history of the site. Students will tour the Grove Archives vault to see some of the treasures it contains while learning the importance of historic preservation to our heritage. Activities may include letter transcribing, photo gridding and taking part in artifact preservation techniques.

**Grade Level:** 5-8; **Program Length:** 2 hours
**State Standards:** 16.A.3b, 16.A.2c, 16.A.3c
**Min/Max:** 12/30
**Fee:** $6.75; **Availability:** Year round

**Please Note:** The Grove is a large site and we will do our best to accommodate multiple classes in a variety of programs to allow for consolidated bussing.
A visit to Wagner Farm is not a trip to a petting zoo. It is an opportunity to see and participate in the daily activities of a real working farm. Our active teaching methods and hands-on activities encourage students to discover the connections between producer and consumer and the past to the present. Field trips are available for ages preschool through grade 8. Read through the descriptions on pages 10-11 and select an unforgettable learning experience for your class.

Each program helps to fulfill Illinois State Board of Education Standards indicated.

Step back in time with your students to a slice of rural American history...one they will never forget...with a trip to Wagner Farm, one of the last working dairy farms in the area. In the 1920s, there were well over 5,200 working farms in Cook County. Today, only a handful remain. With so few Americans directly involved in farming today, it is essential to recognize the amazing impact of agriculture on both the nation and the world. Come learn about it first-hand.

View and comment on photos and stories about the workings of a genuine American farm by visiting the farm’s blog, Wagner Feed at wagnerfeed.blogspot.com.
Moo-ving about the Farm!
Look, listen, and discover what makes up Wagner Farm. Meet and interact with our animals and take part in various hands-on activities such as grinding corn to feed the chickens and pumping water for the cows. End your visit with a chance to make and sample homemade butter. This introductory program teaches children about a 1920s farm, and helps them recognize the connections between farm production and the items we use in today’s world.

Grade Level: pre K-1
Program length: 1 ½ hours
State Standards: SS-12.C.1a, 17.C.1a; SCI-12.A.1a, 12B.1a, 12B.2b
Min/Max: 15/30
Fee: $5.25
Availability: Fall, spring or summer

From Farm to Table ~
Where does the food on your dinner table come from? Did people a long time ago get food the same way we do today? This program introduces students to Glenview’s food producers and merchants in the 1930s. Students will meet a dairy farmer and a local grocer and learn the difference between goods and services, as well as how items were produced and bought. Students will work together to figure out how to acquire the goods they need in order to get supper on the table.

Grade Level: 1-3
Program length: 1 hour, 15 minutes
State Standards: SS 15a.1a, 15d, 1a,b; Math 6b.1, 7a.1c
Min/Max: 15/30
Fee: $5.25
Availability: Winter

Milking Cows and Pulling Plows ~
Get your chore boots out and your work gloves on, it’s time to learn how to be a farmer! Two sections of this class are offered.

Section One: This section allows students to get up close and personal with our livestock. It teaches the proper feeding, grooming and choring activities that contribute to each animal’s care. Students will take part in a range of activities such as milking cows, gathering eggs, or grooming and harnessing our draft horses.

Availability: Fall or spring
Section Two: This section highlights the farm’s many crops and vegetation. Activities include planting, working a historic plow, and using real crops to make products that are used in today’s world. Students will better understand crops and vegetation and learn why farms are so important to both local and global communities.

Availability: Fall
Book each 2 hour section independently.
Grade Level: 2-6
Program length: Each Section is 2 hours in length
Min/Max: 15/30
Fee: $5.25
Availability: Fall or spring

Past-Port to the 20s ~
Here is a truly unique immersion experience for students. Step off the bus and back into the 1920s. Students will be enlisted to do the kinds of chores they would have been asked to do as a member of a farm family long ago. Chores include milking a cow, doing laundry, feeding chickens, and helping prepare and eat the noon meal. Includes lunch at the farm.

Grade Level: 4-8
Program length: 3 hours
Min/Max: 15/30
Fee: $11.00
Availability: Fall or spring

Museum Store...
Please allow time to stop by our Museum Store to pick up a nostalgic souvenir of your visit!
History Hits the Road!

Option One:
This unique program provides students with the opportunity to learn about agricultural history through a series of immersive, hands-on activities. The students will transition through three distinct stations and learn about farming techniques, seasonal crops and transportation. Activities include making apple cider using an old-fashioned cider press, grinding and milling wheat and riding on a wagon pulled by one of the farm's tractors.

Students will not only make important connections between agriculture and contemporary consumer products, but begin to understand the continued impact of farming on American life. This program can be tailored to a specific grade, age group or set of curricula.

Option Two:
Students will have an exciting opportunity to learn about Wagner Farm’s livestock in this hands-on program. They will not only see, smell and touch the animals, but also discover the unique contributions of each animal in sustaining the farm. Each class will transition through three stations as they learn about the life cycles of dairy cows, sheep, and chickens.

The students will make valuable connections between the seasonality of farm work, the cultivation of farm animals and the specific role of each animal in supporting the farm family, contemporary consumers, and American agriculture.

Grade Level: pre K-1 option; 2-6 option
Program Length: 55 minutes
State Standards:
Science: 12.A.1a, 2a; 12.A.1b, 2b; 12.B.1a, 2a; 12.B.1b, 2b; 13.B.1d
Social Studies: 15.D.1a, 2a; 15.D.1b; 16.A.1a; 16.A.1c; 16.C.1a (W); 16.C.1b (US); 16.C.2c (US); 16.E.1a, 2a
Fee: $5.00 per student, teachers and chaperones are free
Availability: Fall or spring

This program has certain space requirements. Call for more information.
Specialty Programs

A Trip Through Time —

at Air Station Prairie, The Grove National Historic Landmark and Wagner Farm

Take a "trip through time" to discover the changes in population and land usage in our community while visiting all three of the Glenview Park District’s award-winning museums. First, explore the pre-settlement Illinois ecosystem at beautiful Air Station Prairie, then find out how Native Americans and pioneers impacted the land at The Grove’s longhouse, log cabin and historic Kennicott House. Finally, learn about the 20th century farming lifestyle at historic Wagner Farm. Hands-on activities with tools and period artifacts will illustrate how each group lived and made a lasting impact on our land.

Grade Level: 2-8; Program Length: 4 hours
Min/Max: 12/30
Fee: $12.50
Availability: Fall or spring

Grove Traveling Trunks —
The Grove’s outreach educational programs will visit your school for a one hour presentation led by our trained staff. Topics include Animal Ambassadors, Native Americans and Pioneer Life.

Grade Level: pre K-8; Program Length: 1 hour
State Standards: Vary with program
Min/Max: 20/60
Fee: $50 minimum includes up to 20 people and $2.50 each additional person
Availability: Year round

Pumpkin Trail —
What better way to celebrate fall then with a trip to The Grove? This program features a hayride, festive games, a decorated tipi and a visit with the animals in our Interpretive Center. Refreshments are included and each student will select and bring home their very own pumpkin!

Grade Level: pre K-1; Program Length: 1 ½ hours
Min/Max: 12/125 children and adults per time slot
Fee: $6.00 per person; Availability: Mid-October

Before You Visit...

✓ Program content and activities are geared for the specific grade level registering. All programs can be adapted for a particular focus, special needs or a diverse audience. Homeschool groups are always welcomed.
✓ Fees are subject to change without notice.
✓ Schools within Glenview Park District boundaries are eligible for discounted fees based on the Glenview Park District Annual Recommendations.
✓ For all programs, teachers and aides may participate free of charge. In addition, one chaperone per 15 students may participate free of charge.
✓ Cancellations must be made 30 days prior to a scheduled program to avoid a $50 cancellation fee.
✓ Discipline is the responsibility of teachers and chaperones.
✓ Upon booking, you will receive a confirmation with specific information about your program and any pre-trip or post-trip activities that may apply.
✓ Because many program activities take place outdoors, students should arrive dressed for the weather. Closed-toed shoes are recommended.

Photo Release —
Photos and videos are periodically taken of people participating in Glenview Park District programs and activities. All persons registering for park district programs/activities or using park district property thereby agree that any photograph or videotape taken by the park district may be used by the park district for promotional purposes including its electronic media, videotapes, brochures, flyers and other publications without additional prior notice or permission and without compensation to the participant.

To Register...
To register for specialty programs or for more information please call 847/299-6096 or e-mail Kris.VanVoorhis@GlenviewParks.org

Printed using vegetable oil-based, non-toxic, biodegradable and renewable ink sources. Printed on 100% post-consumer recycled paper that is Forest Stewardship Council certified and chlorine free.
